PROFILE

A Computer Science graduate with over 1 year of professional experience in Software Engineering. Completed internships and trainee roles in software development, contributing to backend systems, application enhancements, and collaborative team projects while gaining hands-on experience in designing, testing, and deploying software solutions.

EMPLOYEEMENT HISTORY

UniverSL Software (Pvt) Ltd - Trainee Software Engineer

Jan 2025 – Jul 2025

As a Trainee Software Engineer developed backend features using modern technologies and industry-standard practices. Implemented and secure enterprise-level applications while contributing to a collaborative Agile environment.

Responsibilities

- Developed the backend for an appointment management system using **Java Spring Boot** under tight sprint deadlines.
- Implemented secure **REST APIs** with **Spring Security** and **JWT**.
- Achieving **75% Unit Test coverage** with **JUnit** and **Mockito**, reducing defects and improving code reliability.
- Improved API response time by leveraging optimized native queries and efficient use of Hibernate.
- Applied Agile principles in collaborative environments, with strong teamwork, adaptability, and communication skills.
- Applied best coding practices and software engineering principles, with a strong focus on **Object-Oriented Programming (OOP)** with **SOLID** principle.
- Debugged and resolved backend issues promptly, maintaining high system stability.
- Collaborated with frontend developers to integrate APIs and ensure seamless application functionality.

Zebra Technologies (Pvt) Ltd - Software Engineer Intern

Dec 2023 – Jun 2024

As a Software Engineer Intern, contributed to application enhancement and maintenance, ensuring stability and high software quality while applying software engineering principles in a team-oriented environment.

Responsibilities

- Fixed bugs and enhanced application features using C# and C++, improving stability and user experience.
- Conducted manual and automated system testing using Zebra SDKs and tools, ensuring high software quality.

- Implemented enhanced logging across multiple sub-projects to facilitate debugging and system monitoring.
- Developed and maintained detailed test cases and documentation to ensure reproducibility and clarity.
- Applied Software Engineering concepts, particularly Object-Oriented Programming (OOP), to produce maintainable code.
- Followed best coding practices, performing code reviews and refactoring as necessary.
- Collaborated with a team of 10 members to identify and resolve performance bottlenecks.
- Used Gerrit for version control, managing code updates and maintaining version history.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript
- **Backend Development:** Spring Boot, Spring Security, Hibernate, Node.js, Express.js
- **Frontend Development:** HTML, CSS, React.js, Angular, Tailwind CSS, Bootstrap
- **Database Management:** MySQL, MongoDB
- **DevOps & Cloud:** Docker, Google Cloud Platform (GCP)
- **Version Control:** GitHub, Bitbucket, Gerrit
- **Testing & API Tools:** Postman
- **Project Management & Collaboration:** Jira
- **Soft skills:** Teamwork, Adaptability, Communication

PROJECT EXPERIENCE

Project Portfolio – [Project Portfolio Document](#)

EDUCATION

University of Colombo School of Computing (UCSC) **Apr 2021 - Oct 2024**
BSc in Computer Science (Graduate)

Institute of Computer Engineering Technology (ICET) **June 2024 - June 2025**
Diploma in Software Engineering (iCET Certified Developer)
